The yogas in your chart

A yoga forms when grahas join in a particular way. Each one below names the grahas that make it; its results mostly open in those grahas' dashas.

Yogakaraka

A planet ruling both a kendra and a trikona becomes the chart's prime benefic; its dasha brings rise and success, more so when placed in a kendra or trikona.

Made by: Venus (House 2, Pisces)

Raja yoga mixed

A link between a kendra lord and a trikona lord raises status, authority and prosperity in their dashas; fullest when both planets are strong and well placed.

Made by: Venus (House 2, Pisces), Mercury (House 2, Pisces)

Dhana yoga

Links among the lords of 1, 2, 5, 9 and 11 bring earnings and accumulated wealth, fullest when the lagna and its lord are strong.

Made by: Mercury (House 2, Pisces), Venus (House 2, Pisces)

Viparita Raja

Lords of the 6th, 8th or 12th placed among these houses give a rise through reversal: gains or status emerge from others' difficulties or after struggle, often suddenly.

Made by: Moon (House 12, Capricorn)

Vimala

The 12th lord in a dusthana makes one frugal, independent and good-natured, controlling expenses and saving well.

Made by: Saturn (House 12, Capricorn)

Viparita Raja

Lords of the 6th, 8th or 12th placed among these houses give a rise through reversal: gains or status emerge from others' difficulties or after struggle, often suddenly.

Made by: Moon (House 12, Capricorn), Saturn (House 12, Capricorn)

Neecha Bhanga

The debilitation is cancelled, so a planet that began weak gains strength over time; it often gives a rise from modest beginnings to a good position in its dasha.

Made by: Mercury (House 2, Pisces)

More yogas from the classical texts**Chandra Dhana yoga (two benefics in upachaya from Moon)**

Made by: Moon (House 12, Capricorn), Jupiter (House 6, Cancer)

Ubhayachari

Planets on both sides of the Sun give a strong constitution, capacity for big responsibilities, learning and comfort; benefics improve it, malefics strain it.

How much support each house gets (Ashtakavarga)

The seven grahas each give a house some points. The SAV row is the total: a house above 28 is well supported, one below 25 asks for more effort.

How strong each graha is (Shadbala)

Shadbala measures a graha's strength six ways. The last column is the total in rupas: the higher it is, the more freely the graha gives results in its dasha.

Graha	Position	Direction	Time	Motion	Natural	Total (rupas)
Sun	218.2	22.8	118.5	51.0	60.00	6.99
Moon	114.8	20.1	169.8	17.0	51.43	5.93
Mars	227.2	6.5	197.2	—	17.14	7.47

Jupiter	197.0	8.4	170.6	—	34.28	6.84
Venus	220.9	47.4	82.1	—	42.85	6.55
Saturn	160.9	8.6	192.7	—	8.57	6.18

Note: Cheshta, Drik is not counted yet, so the totals may read a little low.
